

390A AFAC

Automatic Laminating Machine

Fully Automatic Laminator, Efficient And Fast

FEATURES

- Fully automatic laminating machine, automatic paper feeding and automatic breaking.
- Thick mold spring, high laminating pressure, good effect.
- Intelligent temperature control system, temperature out of control alarm system, double protection.
- Stepless speed regulation by frequency converter, the fastest laminating speed is 5 meters/minute.
- Single-sided anti-curling (electric button adjustment), equipped with trimming knife.

TECHNICAL PARAMETERS

Model

CFL 390A AFAC

Max. Laminating Width	: 350mm
Laminating Speed	: 0-9m/min
Upper Roller Diameters	: 110mm
Lower Roller Diameters	: 75mm
Max. Heating Temperature	: 160°C
Feeding	: Automatic

Heating Method	: Infrared internal heating
Heating Power	: 1500w
Motor Power	: 250w
Power Supply	: AC220V,50/60Hz
Machine Weight	: 190/260kg
Dimension	: 2000*950*1250mm
Auto Cut	: Yes
