

550L MFAC

Hydraulic Semi-Automatic Laminator

Heavy duty, auto snap over lap system and auto breaking system.

FEATURES

- PLC intelligent control, touch screen display system.
- Auto snap over lap system, So you can put paper easily and conveniently, automatic breaking of finished products (pneumatic breaking).
- Single-sided anti-curling function, equipped with trimming cutter and dotted line tooth cutter.
- Frequency conversion speed regulation function.
- Manual hydraulic control system, shock-proof pressure display.
- Intelligent temperature control, infrared internal heating.
- The silicone roller is made of imported non-stick and high-temperature resistant silicone rubber.

TECHNICAL PARAMETERS

Model	550L MFAC
Max. Laminating Width : 520mm	Heating Method : Infrared internal heating
Laminating Speed : 0-15m/min	Heating Power : 3900w
Upper Roller Diameters : 200mm	Motor Power : 400w
Lower Roller Diameters : 135mm	Power Supply : AC220V,50/60Hz
Max. Heating Temperature : 160°C	Machine Weight : 400/480kg
	Option : Double side laminating
