TECHNICAL PARAMETERS

Model	Cutting Size (mm)	Cutting Thickness (mm)	Cutting Precision	Clamping Method	Display	Power	Machine Weight	Machine Dimension (mm)
HC5010	30-500	80	±0.2	Hydraulic+ Mechanical Pedel	7" Touch Screen	220V 50Hz, 2.3KW	About 350KG	850x1150 x1370
HC6710	30-670				10" Touch Screen		About 400KG	1120x1340 x1410

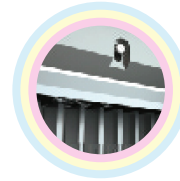

Mute dual hydraulic system

Mute hydraulic system, two-way hydraulic cylinder, external pressure adjustment.

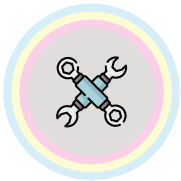

Infrared photoelectric safety protection

Front infrared safety protection design, rear shield safety protection, in line with CE standards.

Oblique knife cutting patent technology

Easier cutting, suitable for thick paper cutting.

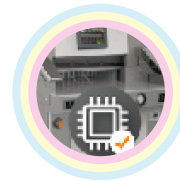

Durable Construction

Built with high-quality, durable materials for longevity and reliability in high-volume, commercial environments.

Thickened aviation aluminum platform with ball

Thickened aviation aluminum platform with ball easily manage paper.

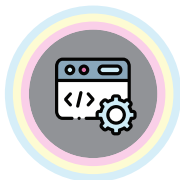

Dimension error compensation function

The program corrects the size error and is easy to adjust.

Patent for paper pushing mechanism with double guide rods on top

Top-hung double guide rod paper pushing transmission structure, no slot paper pushing platform, high precision.

Advanced Programming Capability

Features a programmable control system, allowing users to store up to 99 different cut programs for quick access and repeatability.

User-Friendly Interface

Easy-to-use digital interface with a touch screen for seamless operation, making it simple for operators of all skill levels to program and monitor cuts.
